ICOP

Founded in 1920 by the Petrucco family, ICOP is an underground engineering company active both nationally and internationally in the sectors of special foundations, microtunneling, and maritime works. As the first benefit company in the sector, ICOP operates today in major European markets, supporting high-profile clients with whom it has established long-term relationships, in highly complex projects related to the development of critical infrastructure (e.g., Paris and Copenhagen metros) and the strengthening of energy and water transport networks (e.g., gas pipelines, aqueducts). The group is based in Basiliano (UD) and, as of the end of 2023, employs approximately 350 people with offices in 17 countries worldwide.
